Trium Analysis Online GmbH is an internationally operating and owner managed company, providing web-based solutions and services for healthcare and life sciences. Trium's primary company objective is "Improving Human Health" by online collection, analysis and dissemination of clinical and biomedical data.

One of our core products is CT-Engine®, an Internet based eTrials software suite offering CTMS, EDC, IWRS/ drug supply tracking and safety surveillance.

To strengthen our eTrials team located in Munich we're looking for

Junior / Senior
Clinical Data Associates (EDC Systems) (m/f)

Your Tasks:

- Develop, test, validate, document and maintain eCRFs and underlying databases.
- Ensure data quality (edit check programming, query management)
- Control and visualize data flows and data quality metrics
- Communicate with CRAs, CTAs, Statisticians and Developers
- As Senior CDA: contribution to project management

Your Education/Qualifications:

- Diploma, Master or BSc in a data management, computing, life science, mathematical or statistical subject.
- proven computing (office software, statistical programming language like SAS or R or other scripting languages) and database (SQL) skills
- for the Junior role we expect completed studies and basic work experience e.g. from internship
- for a Senior role we ask for at least 3 years work experience in provision of programming support for biomedical data processing and reporting as well as responsibility for project management tasks
- Excellent English language skills because of our international / US based customers
- Sound understanding of the fundamental principles of programming, testing and documentation.
- Knowledge and understanding of the processes and procedures used within a regulated environment (GxP) and the ability to communicate to study teams and end users alike.
- Valid EU work permit

Your Work Environment:

- Experienced and knowledgeable team willing to integrate and support new colleagues
- Mentoring concept including a solid on-the-job training
- 1-3 person offices; cafeteria in office building
